"Canadians Studying Medicine Abroad"

October 2015

Speakers -

Dr. Janique Dyba, PGY 2 Internal Medicine Queen's BPHE & BScH (Queen's), MBBS (University of Queensland, Australia)

Dr. Jennifer Martins, PGY 3 Psychiatry Queen's
BScH & MSc (Western),
MD (Medical University of the Americas, St. Kitts & Nevis)

Dr. Asad Naqvi, PGY 2 Diagnostic Radiology Queen's BScH (McMaster), MBBS (University of Limerick, Ireland)

	TABLE 1 BREAKDOV	VN OF 2010 SAMPLE BY REGION	*
Medical School Region	Survey Respondents	Estimation of CSAs Enrolled in Medical Schools Across all Years of Study	
Ireland*	272	650	**
Poland**	79	300	
Caribbean	501	2000	
Australia	206	550	**
Middle East***	23	70	and a second
Totals	1081	3570	

- * Three respondents listed as attending a medical school in the UK were included in this group as there were not enough respondents to create a separate group for analysis.
- ** Two respondents listed as attending a medical school in the Czech Republic and one survey respondent listed as attending a medical school in Romania were included in this group.
- ***Middle East group includes respondents attending a medical school in Bahrain and Israel.

Note: one respondent was excluded from the regional analysis because they were from an international medical school not contacted for this study, and not within any of the regions contacted.

STUDYING MEDICINE ABROAD

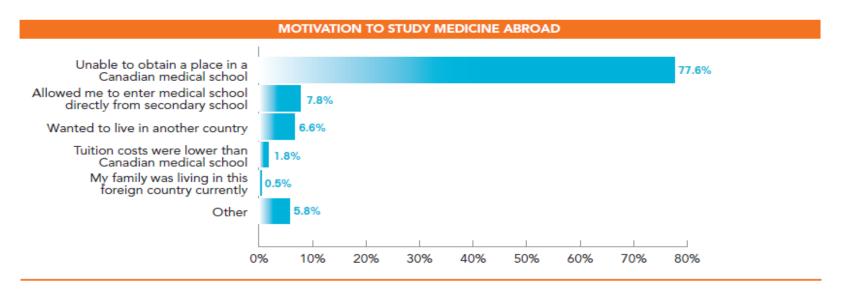

Figure 18 Motivation to study medicine abroad

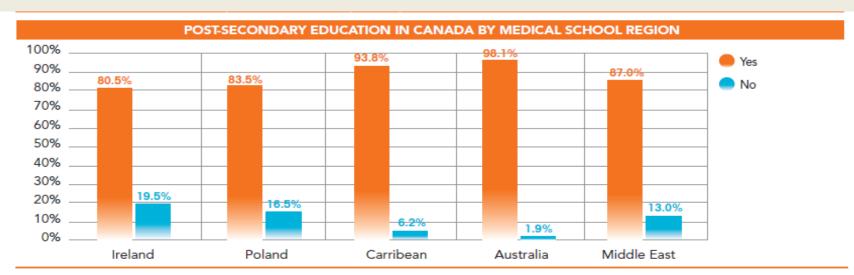

Figure 13 Post-secondary education in Canada by medical school region

Respondents from the Caribbean and Australia where more likely to have attended a post-secondary institution in Canada than those whose medical school was in Europe, where admission to medical school is available directly from high school.

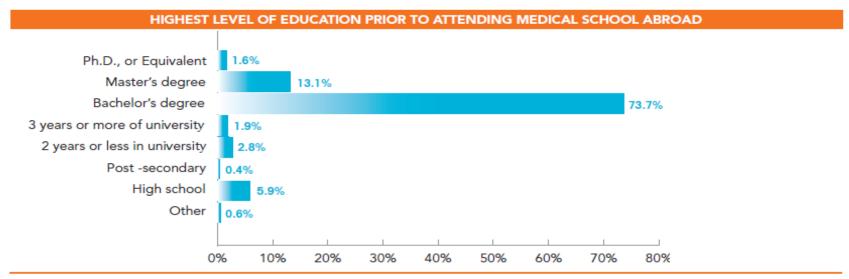

Figure 14 Highest level of education prior to attending a medical school abroad

In 2010, 88.4% of respondents indicated that they had a bachelor's degree, master's degree or Ph.D prior to attending an international medical school. Only 5.9% reported receiving only a high school diploma prior to studying abroad.

CaRMS Report: 2010

SATISFACTION WITH MEDICAL DEGREE PROGRAM

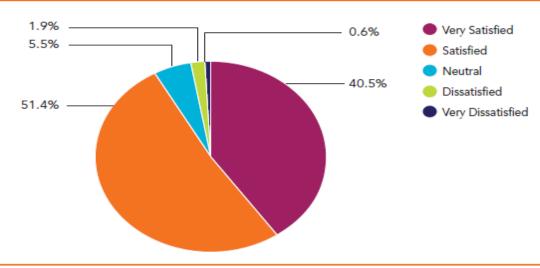

Figure 23 Satisfaction with medical degree program

Overall, 91.9% of survey respondents reported being satisfied and/or very satisfied with the medical education they are receiving abroad.

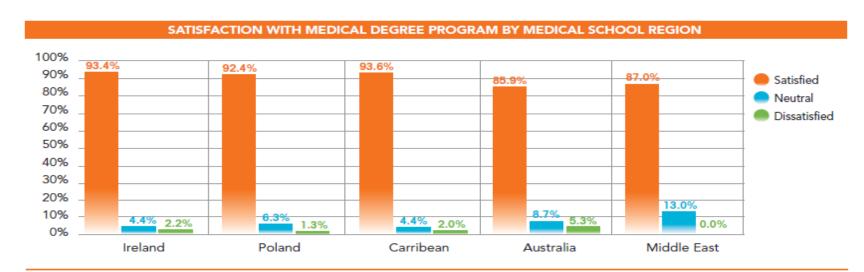

Figure 24 Satisfaction with medical degree program by medical school region

Comparison of the 2010 CSA study to the 2010 Canadian medical graduate cohort

TABLE 11 TOP FIVE	LOCATIONS FOR POSTGR	ADUATE MEDICAL TRAINII	NG IN CANADA	(CSA VS. CMG)
-------------------	----------------------	------------------------	--------------	---------------

CSA			CMG*			
Top Five Locations	n	%	Top Five Locations	n	%	
University of Toronto	327	33.5%	University of Toronto	285	15.7%	
University of British Columbia	162	16.6%	University of British Columbia	274	15.1%	
The University of Western Ontario	59	6.0%	University of Montreal	154	8.5%

Total	977	57.4%	Total	1838	63.1%

^{*} Source: CaRMs 2010 CMG Cohort Data

Four out of the five top residency choices for both CSAs and CMGs are the same.

IMG SELECTION:

Independent Review of Access to
Postgraduate Programs by
International Medical Graduates (IMG) in Ontario

Volume 1: Findings and Recommendations SEPTEMBER 2011

Submitted to the Ontario Ministry of Health and Long Term Care

Date of Graduation, 2011 Applicants

- 86.1% of CSA vs. 5.3% of immigrant IMG applicants graduated in 2009, 2010, or 2011
- 48.6% of CSAs vs. 0.1% of immigrant IMGs graduated in 2011
- 78.8% of immigrant IMG vs. 2.3% of CSA applicants graduated in 2004 or earlier
- 32.1% of immigrant IMG vs. 0.4% of CSAs graduated in 1995 or earlier

Source: CaRMS Data Tables, 2011 Main Residency Match (R-1)

Canadians Studying Abroad and Immigrant IMGs

■ Of the matched group of IMGs across Canada, the percentage of positions matched to CSAs rose from 26.9% in 2008 to 47.9% in 2011. The percentage matched to immigrant IMGs dropped from 73.1% in 2008 to 52.1% in 2001.

Source: CaRMS National Match Results for Active IMGs, 2008-2011

■ In 2011, CSAs represented approximately 1/4 of the IMG applicants and obtained just over 1/2 of the first-year residency positions filled by IMGs at the Ontario faculties of medicine

Source: CaRMS Data Tables, 2011 Main Residency Match (R-1)

What are the chances?

How informed are CSAs before they decide to study medicine abroad?

- In Ontario, after the first iteration in 2011, 98 (20.9%) of the 469 CSA applicants were matched to first-year residency positions and 371 (79.1%) were not matched
- An additional 14 were matched in the second iteration

How informed are other IMGs before they immigrate to Canada?

- In Ontario, after the first iteration in 2011, 85 (6%) of the 1,411 immigrant IMG applicants were matched to first-year residency positions and 1,326 (94%) were not matched
- An additional 24 were matched in the second iteration

Source: CaRMS Data Tables, 2011 Main Residency Match (R-1)

CANADIAN PHYSICIAN RESOURCES - 2012 BASIC FACTS

PHYSICIAN SUPPLY

- Number of active physicians (excluding residents) as of January 2012 = 72,368.
- There are 2.03 physicians per 1000 population, or 1 physician for every 492 people.

PHYSICIAN MIX

- 52% are family physicians; 48% are specialists of other disciplines.
- 40% (28,782) are aged 55 or older.
- 36% are female; 64% are male. Over 67% of family physicians under age 35 are female.
- 75% graduated from a Canadian medical school; 24% graduated from a foreign medical school.

PHYSICIAN DISTRIBUTION

- Less than 10% of physicians practise in rural areas whereas about 20% of Canadians live in rural
 areas. The figure for family physicians is 15% compared to 2% of specialists.
- There is a higher concentration of foreign medical graduates in Saskatchewan (54% of all physicians) and Newfoundland (41%) than in provinces such as Quebec where only 10% graduated outside

INTERNATIONAL COMPARISON

- Canada has 2.4 physicians per 1000 population (including residents) compared to the OECD average of 3.1 (Organization for Economic Co-operation and Development)
- Canada's phys/pop ratio ranks <u>26</u> (tied with Slovenia and USA) out of 34 nations ahead of Japan, Poland, Mexico, Korea, Turkey and Chile.
- US Council on Graduate Medical Education has projected a shortage of at least 80,000 by 2020.

on quota offered). There were 1,920 IMGs participating in the match (mostly in a parallel process).

- 34% of Canadian grads made family medicine their first choice. Highest proportion in last decade.
- By end of second round, 380 IMGs matched through CaRMS.

PHYSICIAN MIGRATION

- 173 physicians moved abroad in 2010. In the same year, 202 returned from abroad for a net gain of 29. Net gains have occurred seven years running compared with historical net losses of 200-500 per year for the previous decade.
- 566 physicians moved to another prov/terr in 2010 (excl. residents). Net gains occurred in NL (2), NB (11), QC (6), AB (3), and BC (14). Net gains and losses are much less than recent years.

INTERNATIONAL COMPARISON

- Canada has 2.4 physicians per 1000 population (including residents) compared to the OECD average
 of 3.1 (Organization for Economic Co-operation and Development)
- Canada's phys/pop ratio ranks <u>26</u> (tied with Slovenia and USA) out of 34 nations ahead of Japan, Poland, Mexico, Korea, Turkey and Chile.
- US Council on Graduate Medical Education has projected a shortage of at least 80,000 by 2020.
