GSK Clinical Education Centre

Food and Beverage Consumption in the GSKCEC

Policy

Policy #: Food 1.01
Supersedes: none
Lead Writer: Lee Fisher-Goodchild
Approved by Operations Committee: November 7, 2002
Revisions: November 7, 2002 (original)

Effective Date: November 7, 2002

Rationale

The purpose of the examination rooms is to provide small-group space for learning clinical and communication skills. In many programs, volunteer patients are examined or interviewed in these rooms. Other rooms in the Centre are accessed solely to make use of electronic equipment (e.g. student and faculty viewing rooms). In order to protect the electronic equipment throughout the GSKCEC, and ensure the hygiene in areas used regularly by volunteer patients, there will be no food or beverages allowed in rooms where the primary use involves using electronic equipment and/or medical equipment or where volunteer patients are examined.

Policy Statement

In the GSK Clinical Education Centre, no food or beverages are allowed in the following rooms:

• Examination rooms
• Peer observation, student and faculty viewing rooms
• Skills development lab

Special accommodations may be made by the staff.
