

Exemplar Program Invitation

Toronto Metropolitan University, School of Medicine (TMU SoM)

The *Clinical Faculty Development Unit* strives to support and enhance the clinical academic skills of TMU SoM clinical faculty members across various sites, including William Osler Health Systems (WOHS), Trillium Health Partners (THP), Region of Peel, Family Practices, Halton Healthcare and Headwaters Health Care Centre.

We empower clinical faculty to transcend traditional medical education barriers through multimodal and technology-enhanced clinical faculty development that meets faculty where they are. We aim to cultivate a sense of belonging, advance equity and inclusion and build the knowledge, attitude and skills necessary to thrive and be proud of their contributions as clinical faculty new to the School of Medicine.

Clinical Faculty Development Webinar Series

Please join us for this accredited upcoming webinar series starting in January 2025! Sessions will be every second Monday from 12-1 pm, and will cover topics in foundational teaching and learning.

Save the date for the first sessions:

- Introduction to TMU School of Medicine, January 13
- Introduction to Adult Learning Environments, January 27

Other upcoming topics include: Feedback, Teaching on the Fly, Clinical Faculty Onboarding and Teaching Opportunities, Competency Based Medical Education (CBME), Programmatic Assessment, How to Build Curriculum, Learner Mistreatment. Please spread the word and see you there!
